Disclaimer: This document is prepared by Hwang-DBS Investment Management Berhad for information only. Based on 200,000,000 units approved for sale at RM 1.00 per unit, the protection covers 100% of capital investment, subject to investors holding the Units until its maturity. Investors redeeming prior to maturity will not enjoy the protection on capital and will redeem at the relevant market Net Asset Value per unit of the Fund. Additionally, investors will be charged an exit fee. The capital protection may be terminated under certain circumstances as described in the Fund's prospectus. The capital protection is provided by HSBC Bank Malaysia Berhad and Rating Agency Malaysia has rated the bank's long-term general bank rating at AAA while its short-term rating is P1. The Fund is not guaranteed and is subject to investment risk. The Prospectus dated 8 January 2007 has been registered with the Securities Commission, who takes no responsibility for its contents. A copy of the Prospectus can be obtained at our office and at all our authorised distributor's branches. Units will only be issued on receipt of an application form referred to in and accompanying the Prospectus. Investors are advised to read and understand the contents of the Prospectus for further details of the capital protection structure and to consider the fees and charges involved before investing in the Fund. The price of units may go down as well as up and investors are advised that there may be a dilution of performance due to the capital protection structure being in place compared to a conventional fund without capital protection. Past performance of the Fund is not indicative of future performance.
